ABOUT ME

I've recently shifted my focus to front-end development. Leveraging my experience in various fields, I've honed my skills in HTML, CSS, Bootstrap, JavaScript, Node.js, testing, and React. With a passion for technology and a dedication to mastering front-end development, I bring a versatile skill set and a strong work ethic to the table.

WORK EXPERIENCE

OWNER AND FOUNDER   2018 -Present
BARKS & WIGGLES

Established and managed a thriving London-based dog-walking, day-care, and boarding business.
Demonstrated exceptional business management skills by overseeing all aspects of operations, including marketing strategies, client relations, financial management, and strategic planning.
Successfully expanded the business to include an online retail shop specializing in pet accessories, creating and managing my brand.
Utilized innovative approaches to enhance customer experience and drive sales, resulting in significant business growth and customer satisfaction.

DIGITAL MARKETING AND DESIGN INTERN   2015
ING BANK

Part of developing new strategies for digital marketing channels.
Responsible for daily changes to the website, social media account management, Google Ads, and SEO.
